This application is in condition for allowance except for the following formal matters:

The drawings must be amended to show the following structure as claimed:

a first hydraulic actuator coupled to the support structure and the riser;
a second hydraulic actuator coupled to the riser and the boom;
a third hydraulic actuator coupled to the boom and the jib;

The applicant argues that the transitional phrase "comprising" allows the drawings to show features which may be claimed but are not. In this case they show a pair of actuators for each instance cited above where "a (first, second or third) actuator is claimed. The claim is treated as having one actuator at each location as the article "a" signifies a single element and not a plurality of elements as shown. The drawings must show the invention as claimed.

Response to Amendment

The amendments to the claims filed on July 28, 2010 have been entered into the record.

Allowable Subject Matter

Claims 1,3,4 and 6-9 allowed.

Response to Arguments

Applicant's arguments filed July 28, 2010 have been fully considered but they are not persuasive. The objections to the drawings stand as addressed above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
